# Memo

**To:** The Finance Committee  
**From:** David Smith  
**Place:**  
**Date:** April 24, 2019  
**Re:** ¾ Ton Pick-Up Truck with Plow Bids

---

The Pollution Control Facility had budgeted for 2 pick-up trucks for the fiscal year 2018-2019. One was a ½ ton 4x4 and one was for a 1-ton chassis. We planned on using grant money from the Pump Station Project to equip the 1-ton. After realizing that there would not be enough grant money to equip the 1-ton I decided to ask for one pick-up instead of the two. I have put out bid requests for a ¾ ton pick-up equipped with a plow. All the bids are for Ford ¾ ton pick-ups with 8' 6" v-plows. The results are listed below:

Varney's Ford	\$37,587
Quirk Auto Group	\$32,924
Quirk Auto Group	\$33,812
Darlings Ford	\$35,833
Darling Ford	\$32,279 (14 – 16 weeks delivery)
Whitehead Ford	No bid, none in stock, 3 to 4 months wait

The Sewer Advisory Board has recommended the bid from Quirk Auto Group for \$33,812. It is not the lowest bid, but it has the electronic-locking rear axle which is a key feature for plow trucks.

Sincerely,

David Smith
